

# Cookies Policy

Version: CKP-01/2026-V1

Last update: 16th December 2025

The purpose of this Cookies Policy is to inform you about the different cookies, local storage systems, and/or other similar technologies (hereinafter collectively referred to as “**cookies**”) that AuditAI (“**we**”) collect through our AuditAI platform (hereinafter, the “**Platform**”), as well as on the website <https://audit-ai.com>, as well as the different ways in which you can reject, allow, or block them.

Please note that rejecting, blocking, or not accepting certain cookies may affect the proper functioning of the content displayed on the Platform.

## What are cookies?

Our Platform uses cookies. Cookies are small files that contain a series of characters sent to your browser from our own server or that of a third party. These files collect, store, and retrieve information for various purposes, such as (among others, as described in this Cookies Policy) gathering user login or identification data; loading and reproducing forms and/or content plug-ins; providing advertising, etc.

If the installation of cookies involves the processing of personal data, such processing will also be governed by our [Privacy Policy](#).

## What types of cookies exist?

Below are the different types of cookies that may exist according to their characteristics. This explanation is a general overview of what is meant by cookies, for informational purposes only. The specific cookies used on our Platform are detailed in the table below.

**Types of cookies according to the entity that manages the device or domain from which they are sent and processes the data obtained:**

- **First-party cookies:** These are cookies sent to the user’s device from a device or domain managed by the website owner and from which the requested service is provided.
- **Third-party cookies:** These are cookies sent to the user’s device from a device or domain not managed by the website owner, but by another entity that processes the data obtained through the cookies. If cookies are installed from a device or domain managed by the website owner but the information collected through them is managed by a third party, they are not considered first-party cookies.

**Types of cookies according to the length of time they remain active:**

- **Session cookies:** These are designed to collect and store data while the user accesses a website or app. They are typically used to store information that only needs to be kept for

providing the requested service on a single occasion (for example, a list of purchased items) and disappear once the session ends.

- **Persistent cookies:** These store data on the user's device and can be accessed and processed for a period defined by the cookie controller, which can range from a few minutes to several years.

#### Types of cookies according to their purpose:

- **Technical cookies:** These allow the user to navigate through a website, platform, or app and use the various options or services available, such as controlling traffic and data communication, identifying the session, accessing restricted areas, remembering items in an order, completing a purchase process, registering for an event, using security elements while browsing, storing content for the playback of videos or sound, or sharing content through social networks.
- **Functional or personalization cookies:** These allow information to be remembered so that the user can access the service with certain characteristics that differentiate their experience from that of other users, such as language preferences, the appearance or content of the service depending on the type of browser used, or the region from which the service is accessed.
- **Analytical cookies:** These allow the party responsible for them to track and analyze the behavior of users of the websites to which they are linked. The information collected through this type of cookie is used to measure website, application, or platform activity and to create user browsing profiles, with the aim of introducing improvements based on the analysis of how users interact with the service.
- **Behavioral advertising cookies:** These enable the most efficient management of advertising spaces that the website owner may have included on a website, application, or platform from which the requested service is provided. These cookies store information about users' behavior obtained through continuous observation of their browsing habits, allowing the development of a specific profile to display advertising based on those habits

### Cookies used on the website <https://audit-ai.com>

Type of Cookie	Cookie	Description	Host	Duration
Technical	lawwwing-consent-v2	Cookie used by Lawwwing to remember the user's consent preferences regarding the use of cookies.	Lawwwing	364 days
Technical	lawwwing-session	Cookie used by Lawwwing to maintain the user session and record their preferences while browsing.	Lawwwing	364 days
Technical	__Secure-next-auth.csrf-token	Cookie used by NextAuth (CraftCMS) to protect the user session against cross-site request forgery (CSRF) attacks.	CraftCMS	session
Behavioral Advertising	__Secure-next-auth.callback-url	Cookie used by ID5 to manage secure redirects during	ID5	session

		authentication or advertising identification processes.		
Technical	__clnds	Session cookie set by Cal.com to enable meeting scheduling functionality and maintain session state.	Cal.com	session
Analytical	_ga_50K8V3NHJ5	Cookie set by Google Analytics to distinguish users and collect information about how they use the website.	Google	729 days
Analytical	_ga	Cookie used by Google Analytics to identify and analyze user interactions with the website.	Google	729 days

## Tracking technologies used on the AuditAI platform (<https://cc.audit-ai.com>)

Type	Name of the technology	Description	Host	Duration
Technical	JSON Web Tokens	The application uses this browser local storage (localStorage) to store the information required for the authentication process and the maintenance of the user session (such as the user ID). The purpose is to keep the user session securely active, authenticate the user on the platform, and authorise access to the application's services and APIs.	Local storage	Session or a maximum of 24 hours

## Who uses the information stored in the cookies?

The information stored in the cookies on our Platform is used exclusively by us, except for those identified above as "third-party cookies" (if any), which are used and managed by external entities to provide services requested by us. Where applicable, please refer to the details of the specific third-party cookies we use for more information about how those third parties process the data collected through them.

## Are international data transfers carried out?

Some of the third parties mentioned above may be located in countries outside the European Economic Area (EEA), meaning that your data may be transferred to those countries. You can find

more information about international data transfers carried out by the third parties identified in this Cookies Policy in their respective privacy policies.

## How can I disable cookies and tracking technologies?

You may revoke your consent for the use of cookies (if applicable) at any time, or allow, block, and delete the cookies installed on your device by adjusting the settings of your web browser (on your computer, smartphone, or tablet). With regard to the JSON Web Tokens storage technologies, they are automatically deactivated when logging out of the Platform and can also be deleted through the settings of your own web browser.

Below are links that describe how to configure the main browsers to disable cookies. Please note that these are third-party links, which we have not edited or can modify, and therefore we are not responsible for the content of those websites:

	<b>Firefox</b> <a href="https://support.mozilla.org/es/kb/Deshabilitar%20cookies%20de%20terceros">https://support.mozilla.org/es/kb/Deshabilitar%20cookies%20de%20terceros</a>
	<b>Chrome</b> <a href="https://support.google.com/accounts/answer/61416?co=GENIE.Platform%3DDesktop&amp;hl=es">https://support.google.com/accounts/answer/61416?co=GENIE.Platform%3DDesktop&amp;hl=es</a>
	<b>Internet Explorer</b> <a href="https://support.microsoft.com/es-es/help/17442/windows-internet-explorer-delete-manage-cookies">https://support.microsoft.com/es-es/help/17442/windows-internet-explorer-delete-manage-cookies</a>
	<b>Safari</b> <a href="https://support.apple.com/es-es/guide/safari/sfri11471/mac">https://support.apple.com/es-es/guide/safari/sfri11471/mac</a>
	<b>Opera</b> <a href="http://help.opera.com/Linux/10.60/es-ES/cookies.html">http://help.opera.com/Linux/10.60/es-ES/cookies.html</a>

We recommend consulting your browser's and device's manuals for more detailed information about how cookies work and how to manage them. Please note that your decision to reject cookies is specific to each browser and device you use. Therefore, if you choose to disable cookies on one device and want the same exclusions to apply to another, you will need to disable them again on that other device.

Keep in mind that if you accept third-party cookies, you must delete them through your browser settings or using the system provided by the third party itself.

As an additional step, regarding third-party cookies used for interest-based advertising (if applicable), please note that certain third parties may be members of one of the following self-regulatory programs for online behavioral advertising, which provide corresponding opt-out options:

- Network Advertising Initiative (NAI) – (<http://www.networkadvertising.org/choices/>)

- Google Analytics – (<https://tools.google.com/dlpage/gaoptout?hl=es>)

If at any time you do not wish your personal data to be used by third parties to show you ads or to personalize the ads you see, you can adjust your preferences using the tools provided by those third parties (e.g., Twitter) or through one of the aforementioned self-regulatory programs, provided the third party is a member of them.

Finally, please note that most mobile devices allow you to control tracking for advertising purposes through the “Limit Ad Tracking” option (on iOS devices) or “Opt out of Interest-Based Ads” option (on Android devices).
